

# MARGARETNESS CROSSNESS & COLDHARBOUR LIGHTHOUSES REPLACEMENT AND UPGRADE

## Introduction

Consultation for the planned replacement and upgrade of the lighthouses at Crossness, Coldharbour, and Margaretness. After careful consideration of various factors, we have proposed the installation of drop-down masts as a solution to eliminate the need for working at height. This will also provide an opportunity to upgrade the light units at each location.

The replacement lighthouses will be of a similar height, with approximately 8m masts to maintain the existing focal height. To maintain consistency, they will be painted in the same red colour as the existing structures.

As part of this project, the existing lattice towers will be decommissioned and demolished before they become unsafe or require significant maintenance.

*Existing vs Proposed.*

### **Aim/Strategy**

This project is centred around the removal of the lattice structures and the installation of replacement lights on drip down masts. Before making a final decision, we highly value your feedback as an interested stakeholder.

We invite you to share your thoughts, concerns, or suggestions regarding the proposed replacement and upgrade. Your feedback will help us ensure that the final decision aligns with the needs and expectations of all stakeholders involved.

### **Responses**

Any comments you may have in response to this consultation exercise should be addressed, in writing, to the Marine Compliance Department at the address below, or by e-mail to: [cn@pla.co.uk](mailto:cn@pla.co.uk), to arrive by **16th February 2024**. All comments must be submitted before the closing date.
