

NOTICE TO MARINERS M28 of 2017

UPPER POOL

TOWER BRIDGE

FILMING OPERATIONS

On Saturday 25th March 2017 between 0700 and 1000, an unmanned aerial vehicle (UAV) will be undertaking filming operations of the THAMES LIMO between London Bridge and Tower Bridge, from the EDWARDIAN stationed above Tower Bridge.

The UAV will conduct a vertical take off from the EDWARDIAN and complete a series of flights during the three hour window that will involve low level flights, at a height of approximately 50 feet above the river.

In order to support these works Local Traffic Control will be conducted from an attending Harbour Service Launch, call sign prefix "Thames Patrol". The Harbour Service Launch will be monitoring VHF channel 14 and providing Local Traffic Control as required.

All vessels are to navigate in this area with caution, maintaining a continuous watch on VHF Channel 14 and follow the instructions from the Harbour Service Launch which will be exhibiting flashing blue lights. Whilst endeavours will be made to lessen the impact on river traffic at this time, operators should be aware that there may be delays to vessels of up to 15 minutes during this period.

Further details will be broadcast by London VTS on VHF Channel 14.
