

NOTICE TO MARINERS M4 of 2017

WANDSWORTH REACH

RIVER WANDLE WEIR REMOVAL

On or about the 18th January 2017, contractors working on behalf of Wandsworth Borough Council will begin the demolition of the weir in the River Wandle.

All works will be undertaken above the existing weir site using an excavator mounted on a flat top crane barge with material being removed from site by the Motor Tug SKY and Pontoon CUB to the Wandsworth Council Yard at Dormay Street in the River Wandle.

The Crane barge will display the lights and shapes as prescribed in Rule 27 of the International Regulations for Preventing Collisions at Sea 1972 namely:

- By day, three black shapes in a vertical line the highest and lowest of which are balls and the middle one a diamond.
- By night, three all round lights in a vertical line the highest and lowest of which are red and the middle one white.

These works are expected to take approximately 3 months.

Vessels are requested to be mindful of the nature of the works, their wash when passing the works and to pass at a safe distance.

London VTS will broadcast requests for vessels to “proceed with caution” or “proceed at slow speed”, as described in Permanent Notices to Mariners 4 of 2014 as required by the works. International Code flags “Romeo Yankee” will be displayed when this is in effect.

Further details will be broadcast by London VTS on VHF Channel 14.
