

NOTICE TO MARINERS M63 of 2019

LAMBETH REACH CHARING CROSS RAIL BRIDGE DRONE SURVEY

On or about the 17th September 2019 between 06:30 and 09:30, contractors working on the Tideway Tunnel Project will survey in the vicinity of Charing Cross Rail Bridge using an Unmanned Aerial Vehicle (UAV) being controlled by an operator aboard the RHIB VISCOUNT. Please see the chartlet below depicting the survey area including the positioning of RHIB VISCOUNT at two positions.

The RHIB VISCOUNT will maintain a continuous listening watch on VHF Channel 14 and will not obstruct the arches for transiting vessels. The UAV will not be flown within 10 metres of passing vessels. If there is any doubt that the UAV is not complying with this passing distance vessels are to communicate their doubt directly to the RHIB VISCOUNT and London VTS.

All vessels are to navigate in the area with caution, maintaining a continuous watch on VHF Channel 14.

Further details will be broadcast by **London VTS** on **VHF Channel 14**.
