

EMERGENCIES

Always carry a mobile phone
(in a buoyant water-proof case)

For life-threatening
emergencies immediately call:

Coastguard – 999 or 112

The Coastguard will send the
appropriate assistance. Be
prepared to give your name,
location and the nature of the
emergency.

INCIDENTS

For navigational issues:

London VTS – 01474 569311

or on VHF channel 68
or via the PLA smartphone app

For non-emergencies:

**Essex Police Marine unit
01621 782121**

**Kent Police
101**

PORT OF
LONDON
AUTHORITY

Thames Code for Personal Water Craft

First edition, 2019

THE GOLDEN RULES

SAFETY

Without proper training, using a Personal Water Craft (e.g. Jet Ski) can be dangerous. Machinery failure is the main cause of incidents, leaving users vulnerable in a potentially busy waterway. There are also risks from the effects of cold water, currents, tides and exhaustion.

How to stay safe:

Always wear an appropriate Personal Flotation Device (PFD). An appropriate, well-fitted and well-maintained buoyancy aid or life jacket could save your life > www.rya.org.uk

Get the right training > www.rya.org.uk

Learn basic engine maintenance

Keep within your level of ability and experience

Tell someone where you're going and when you expect to return

Never go afloat under the influence of alcohol or drugs

For further safety advice visit > rni.org/safety

RESPECT
THE WATER

Safety kit list

Suitable clothing

Appropriate PFD

Goggles

Kill cord

Foot protection

Gloves

Whistle

Navigation lights

Torch

First aid kit

Full tank of fuel/oil

Fire extinguisher

Flare pack

(VHF Radio)

Rope

Anchor

Tool kit

DO

Only launch, moor and land from
Authorised Launch Sites

Read and observe the Byelaws
and rules posted at launch sites

Ensure you have adequate public
liability insurance and ID

Register with Datatag and clearly
display your "Datatag Visible ID"

Carry the correct safety equipment
when afloat

Show consideration to other water
users, particularly with your wake

Consider joining a local PWC club

Give ships a wide berth and always
give way to larger vessels

DON'T

Use a PWC upriver of
Lower Hope Point or enter
restricted areas (see diagram)

Exceed 8 knots within 200m
of a berth, jetty, pier, public
beach, bathing place or
residential property

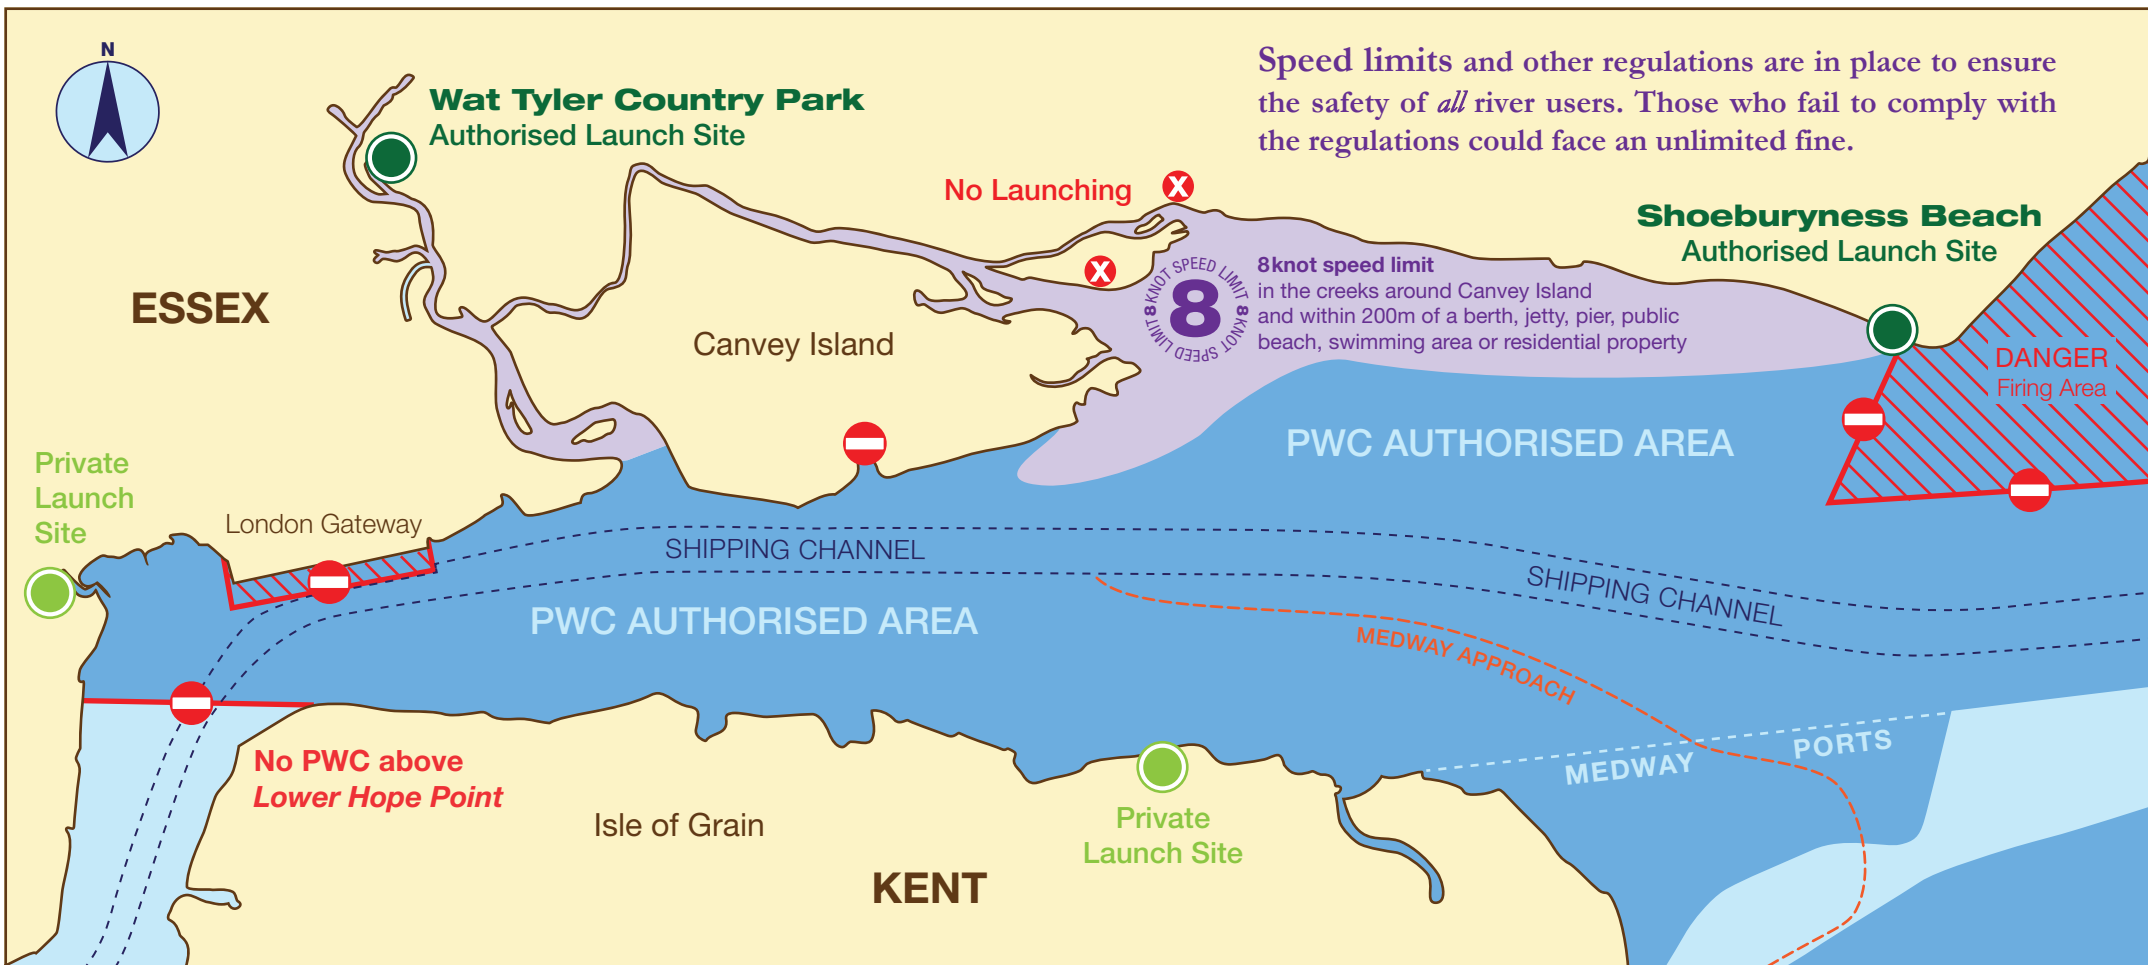

Ride the bow waves of ships
or cross close ahead of them

Generate wake when passing
through moorings

Underestimate the speed
ships are travelling or
the space they need to
manoeuvre

Go afloat in the dark or fog

ALWAYS KEEP A GOOD LOOKOUT

THE ENVIRONMENT

The Thames Estuary supports some of the most ecologically valuable habitats in the UK, many of which have been legally designated for their wildlife value.

In order to minimise the impact on the environment from PWC users, please follow these simple rules:

It is prohibited to launch, moor or land PWCs from anywhere except **● Authorised Launch Sites** (see diagram above)

Also do not land on salt marsh, mudflats or sandbanks. Maintain a good distance from salt marsh and exposed mudflats, avoiding shallow waters or the riverbed where submerged vegetation could be disturbed.

Wildlife: Do not approach any wildlife, in the water or on land. As a general rule, never get closer than 100m (or 200m if another boat is in the vicinity). If encounters with wildlife are unavoidable, maintain a steady direction and a slow speed away from the wildlife, creating no wake.

Pollution: Do not decant petrol or use chemical treatments in the water and do not drop litter into the river or onto the foreshore.
