

NOTICE TO MARINERS M43 of 2022

RICHMOND LOCK AND WEIR DRAW-OFF 2022

Weirs open Monday 31st October to Friday 23rd December

With reference to Notice to Mariners [U1 of 2022](#), an extended draw-off period is required due to additional repairs to the centre weir.

In order to carry out essential maintenance works and additional repairs on Richmond lock, weirs and sluices, it will be necessary to lift the weirs at Richmond for a period of 8 weeks. This will allow the river between Richmond Lock and Teddington Lock to drain down at low water on each tide.

The draw-off period will commence at approximately **08:30 on Monday 31st October** and will complete at approximately **16:30 on Friday 23rd December 2022**.

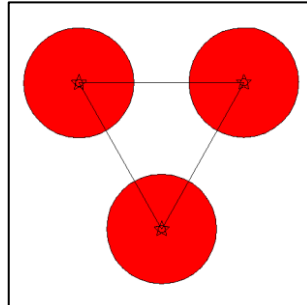

During this period river users are reminded that the river will **NOT** be maintained at the nominal level of 1.72m above Ordnance Datum Newlyn and it is expected the riverbed will be exposed at low water.

Owners of vessels and structures usually moored between Richmond Lock and Teddington Lock should act in good time, either to move their boats to more suitable moorings or to assure themselves that the boat is capable of taking the ground. Short term moorings are of limited availability in the upper district.

River works licence holders and riparian landowners are reminded that any interference with the foreshore such as dredging, excavating or disturbing the riverbed requires a licence from the Port of London Authority. Environmental legislation provides for very high levels of fines when licensing requirements are not strictly adhered to.

--- This notice continues on the next page ---

Vessels navigating through the weirs and upriver of Richmond Lock must do so with great care and with regard to people working in and around the Lock and weirs. Weirs may be raised and lowered at various times for maintenance purposes, requiring arch closures. Arches closed to navigation will be marked in accordance with the Port of London Authority Thames Byelaws 2012:

Persons in charge of vessels are reminded to be aware of their wash, as vessels and structures may be grounding during the low water.

Further information will be broadcast by **London VTS** on VHF channel 14. Contact Richmond Lock on telephone 020 8940 0634 or VHF channel 80.
