

NOTICE TO AGENTS, BERTH AND SHIP OPERATORS No.9 of 2015

DEFINITIVE BERTHS LIST

This Notice is also promulgated as Notice to Mariners 22 of 2015 and supersedes Notice to Mariners 21 of 2013 and Notice to Agents, Berth and Ship Operators No.9 of 2013, which are now cancelled.

Background

The names of commercial freight and passenger handling berths within the Port of London have, over the years, often changed with ownership. This has resulted in many berths being referred to by several names, which inevitably leads to confusion amongst the various river users involved in and supporting marine operations at those facilities. There are also therefore potential navigational safety issues associated with this confusion and uncertainty.

Definitive Berth Names

The Port of London Authority (PLA) has completed a review of the current list of Definitive Berth names to ensure consistency and clarity, and to facilitate the safety of marine operations. The list overleaf identifies all current operational cargo and passenger handling berths and tiers, and all Central London passenger vessel operating Piers.

In order to ensure common usage, these names will be used and promulgated on PLA charts, in Notices to Mariners, Notice to Agents, Berth and Ship Operators and in navigational information and broadcasts, as appropriate. A change of facility operator will not usually be sufficient to change the Definitive Berth name used for the purposes of marine operations, and any such change will only be considered in exceptional circumstances and following discussion and agreement with the PLA, through the relevant district Harbour Master.

This latest Definitive Berth List will apply from **Monday 30th November 2015**, from which date, Mariners and Agents are requested to use these berth names when ordering Pilots, Tugs and Boatmen, and in all references to associated marine operations and services.

No. 9 of 2015 – Definitive Berths List

UPPER DISTRICT (Crossness – Teddington)	
North Shore	South Shore
Teddington Lock	Richmond Landing Stage
Hammerton's Pier	St Helena Pier
Richmond Lock and Weir	Kew Pier
