

Upper Pool to Sea Reach - GB Circumnavigation World Record Attempt

NOTICE TO MARINERS

Upper Pool to Sea Reach - GB Circumnavigation World Record Attempt

Mariners are advised that on **1st June 2025**, a World Record Attempt is taking place between Tower Bridge and the outer limits of the Port. The attempt involves the 2-person rowing vessel **HOPE**, which is equipped with VHF and AIS, departing from Tower Bridge at 0615 and heading out to sea.

River users are to maintain a sharp lookout and navigate with caution with respect to this vessel, which may appear in waters that Mariners would not normally expect to find it.

The vessel **HOPE** will be following the passage plan below which provides a useful guide to other river users:

Location	Approximate Time at Location
Tower Bridge	0615
Greenwich Pier	0715
Woolwich Thames Barrier	0815
Queen Elizabeth II Bridge	1115
Gravesend Lower Anchorage	1430
Lower Hope Point	1730

The vessel will be accompanied by a Safety Launch from Tower Bridge to the Thames Barrier, after which it will proceed out to sea and towards Dover.

The crew expect to complete the challenge and return to the Thames in late July.

A subsequent Notice to Mariners will follow to inform river users of the inbound passage, once the crew have arrived at Felixstowe.

Telephone calls, VHF radio traffic, CCTV and radar traffic images may be recorded in the VTS Centre
